You can create an empty bubble using one of several OMR fonts that install with the Remark Office OMR product.

The following fonts have an empty OMR bubble available:

OMR BUBBLES

OMR BubblesLC

OMR BubblesLCextended

To create an empty bubble when using any of the above fonts, press the (~) right before the number one on the U.S. Standard keyboard without holding shift down.

You can also use a capital O in the Arial font to create a plain/empty bubble.
