

Error 53 File Not Found: GVCCrypt10.dll During Remark Office OMR Install

Article Number: 185 | Rating: Unrated | Last Updated: Wed, Aug 6, 2014 at 7:00 AM

The most straightforward way to resolve this error in the majority of cases is to check to see if the Remark Office OMR Demo is installed on your system (look in the Windows control panel). If it is, uninstall the demo version, reboot and then reinstalling the full software.

If that fails to solve the issue, please contact support at support@gravic.com.
