

Error #2147023898 - Invalid Access to Memory Location

Article Number: 190 | Rating: Unrated | Last Updated: Fri, Aug 29, 2014 at 9:49 AM

If you receive an Error #2147023898 - Invalid Access to Memory Location either when installing or launching a Remark product, it is likely due to a Microsoft update that caused this software error on Windows 7 computers. You will need the latest version of the software to eliminate the error. Please contact [Remark Support](#) with the version number of the software you are using and we will set you up with the appropriate files. Please note that Remark supports the current version of software and one version back. Therefore if you are receiving this error with an older version of the software, you may need to upgrade your software in order to keep current with the latest operating systems.
