If you receive the Error #-2147467259 Operation Cannot be Completed. Method ~ of Object ~ Failed when launching (Remark Quick Stats), the problem may be related to your default printer driver. Please check to see if you have a setup. If not, please set one up. If you do, have a default printer set up, try choosing a different printer and/or getting printer driver. Once you have made the changes to the default printer, please try running Remark Quick Stats again.
